

# FOREWORD

I have the pleasure to present this "Collection of Power-Point Presentations on Political Science". The PPTs are on Mangalore University BA Political Science Papers right from the First Sem. BA down to the Sixth Sem. BA excluding that of Public Administration.

This is an earnest attempt to provide a 'Teaching Aid' in the form of Power-Point Presentations (PPTs). It is also an innovative practice of Teaching-Learning process in the discipline of Political Science.

In this age of Information and Communication Technology (ICT) this is an important step which is deviated from the old 'Chalk & Talk method' which is routinely used in class-room teaching which is very much necessary for a quality Teaching-Learning Process.

The special features of this Power-Point Presentation are – inserting relevant pictures from Internet, list of Tables, features, Merits, Demerits, Effects, Foot notes wherever needed, using of bold letters to stress the significance of the points to remember, designs inserted and colours used, etc.

Most of the very important topics from the syllabus are included. More than a hundred PPTs are inserted here, thousands of slides are included.

I hope, this will be of much help for both students and teachers of Political Science in preparing for the University Examination and for enhancing the knowledge of the subject.

I acknowledge my sincere gratitude to my beloved Principal, Dr. John Clarence Miranda, and the Grade I Principal of Pompei College Aikala, for encouraging and motivating me to accomplish the task.

It took almost years together for me to compile & prepare this hundred plus PPTs. I am extremely grateful to my wife and children for the kind of cooperation & support in materializing this work.

Aikala

Thomas G.M.
